

The Consumer Bankers Association should not be able to call those on the do not call list. Life has been SO GOOD since the list was created and allowing banking institutions to call and solicit anything goes against the DO NOT CALL list. The banking institutions that I have business with should ask me for permission when I join their financial institution if they can contact me for sales purposes. Please join with our Indiana Attorney General Steve Carter and dismiss the Consumer Bankers Association's request.

Thank you!

Kara Jenkins
